Enhanced: EDI & Cataloging Casalini (Italy, Spain and Portugal), Aux Amateurs de Livres (France), Harrassowitz (Germany & others) starting Feb. 2013 w/ Marron cataloging records.
EURO EDI: EDI only. Harrassowitz (Germany & others) through Feb. 2013 only. Casalini books excluded from cataloging coverage.
Standard: No vendor services

*New (physical) general collections EXCLUDES: CJK, Middle East, Maps, Scores, Sound Recordings
**Subsequently, more are upgraded to Full Cat, via OCLC automated re-searching services.
SALLIE (Stanford ALL-Image Exchange) is Stanford University’s campus-wide system for sharing and managing images. Click "Login to SALLIE" above to log in with your SUNet ID.

**Find images to use**
Click the "Login to SALLIE" button to view and download images from a variety of departments. 
Step-by-step instructions on finding and downloading images.

**Manage images**
You can use SALLIE to store (and optionally share) your department’s images. 
Learn about using SALLIE to store, organize, and provide access to your images.

**One-on-one help with Cumulus and SALLIE**
Come to the weekly Administrative Systems Open Lab, every Friday from 9 am to noon in Birch Hall, Lab B, if you:
- are new to Cumulus and SALLIE and need to learn to add and manage images
- are familiar with Cumulus and SALLIE and need some tips to improve your workflow
- have questions about your particular implementation of SALLIE
- have any questions at all about Cumulus and SALLIE
Entities to Reconcile

- Persons
- Corporate bodies
- Works
- Manifestations
- Geographic locations
- Concepts
- Events
ISNI and publishers
New authors

Publisher + ONIX

By retronator

ONIX data converted to Intermarc

identifier

Bibliographic + authority records

BnF cataloguer

{BnF catalogue général}
British library experiences

- 344,313 authors of British theses loaded
- 74,129 assigned ISNIs through matching & uniqueness algorithms
- Working to increase assignment by system
- Plans for ongoing assignment to new authors as an ISNI Registration Agency
Moving Forward

- Complex identity management by humans
- Incorporate identifier assignment into our traditional workflows
- Batch assignment of international identifiers
- Trusted, automated reconciliation service
